

Verity ONE : Project V.0.5

8/1/18 Updates :

- First Page
 - Change to Welcome to Verity ONE™
 - Change square'round' box to circle (This will lay the foundation for our Chameleon Technology
- Page 2-4
 - I love the secondary phone authentication but it should go as follows, (input number, authenticate, *Member Returning = Login Screen not shown* *Member Not Found = Register Screen*
 - I like the Register Page it looks great =)
 - Create a Login Page Just take it from Scan13
 - And Include social Logins Facebook & Google
- Page 5
 - Lets change profile Icon to hamburger menu and remove the settings icon top right.
 - Like Scan13 we can provide all information under the hamburger menu tab
 - Change Title to Verity
 - Change Chameleon Technology to as follows (Shopping in *zipcodepulled* from location) (Example : “ Shopping in 33431 “
 - Delete Prices may Vary
 - Again make the icon a circle
 - “ Search Verity “
 - For the first image we are going to display the Scan13 Challenge (It is missing grey box from behind Color Code “ #f7f7f7 “
 - Color Code for “ Recent Scans “ (545454)
 - The ads look good but they will be pre generated from Admob in firebase. Again missing the grey background same as first image (#f7f7f7)
 - Menu Icons Should Follow (Home, Wallet, Scan, Message, Browse) and update the icons the best you can to match these shown.
-
-
- (SHOWN NEXT PAGE)
-
-

All information provided in this document is confidential and is property of Verity, Inc.

- USE this as Review (don not take it literal as there are changes but the general design goes as follows.)
- (THERE IS MORE INFO BELOW IMAGE)

- I love the Chat it Looks great =) We use firebase chat but I want the color theme to be blue and white (as follows the header is nice but the profile holder should be white)
- Also we need another Screen which instead of the users name it shows header menu (Messages , Notifications)

Objective : Verity ONE UI Update, Location Summary New, Scan Update, added Functionality

Tech Scope: (Design Below) * current mockup design does not illustrate every change

Admin Profile v.s. Consumer Profile Defined

Application : Home , Wallet (instead of search) , Scan , Messages(instead of coupons) , Browse (menu main)

Home :

- Verity Default Image if not store found (Change Location Center)
- Profile top Left
- Settings Top Right
- Instead of Coupon Button (the scan 13 project will be in this location)
- Recent Scans
- Ad's

Wallet :

- ERC-20 Compatible Wallet
- <https://eth-hot-wallet.com/>
- <https://github.com/PaulLaux/eth-hot-wallet>
- Stores Tokens (will eventually allow you to place trades on our exchange)

Scan :

- Generic scan (Snapchat style , search bar up top scan in middle)
- This gives us 2 points for search

Chat :

- Notifications
- & Communication on this page

Browse :

- Recalls
- User Points
- Coupons
- Citizen Scientist Project
